

## EVENT SCHEDULING

Event staffing can often be challenging and time-consuming if done manually – automate the tedious task with VCS Event Scheduling. Apply your specific and unique business rules to quickly determine who is available to work an event, reach out to eligible staff via text messages, automatically fill and bill the position, and keep track of everything along the way.

SAVE TIME, SAVE MONEY & STAFF SMARTER, ALL WHILE ENSURING COMPLIANCE

### Staffing Levels & Workloads

Never worry about under/over staffing an event again.

- Create event templates to make scheduling events faster and easier than ever
- Use event ratios to manage staffing levels based on attendance
- Place appropriate staff members in correct roles with automated skillset matching
- Let employees bid on available work shifts from anywhere at any time

### Budgeting & Cost Control

Reduce staffing costs while remaining compliant.

- Use the rules based-engine to completely eliminate unnecessary overtime
- Set budgets for each employee and each site you're scheduling for
- Receive alerts if the schedule exceeds the required budgeted daily, weekly or monthly shifts hours
- Track patterns and budgets with real-time reporting

## No-Show & Sick Call Replacement

Easily and instantly hire extra help when needed.

- Quickly replace sick calls and no-shows by using automated skillset matching to fill vacant shifts
- List of available, qualified employees is generated in seconds
- Choose your preference, or let the system automatically reach out to the best fit

## Total Staff Management

Real-time insights and 24/7 communication so everyone remains in the loop.

- Collaborate with your team to make sure that everyone is where they need to be
- Keep track of who is working which event, move work shifts around, and know if you need to add more people
- Capture clock-ins and export data in any way you need

## Payroll & Billing

Billing, accounts receivable and escrow management to eliminate payroll errors and avoid litigation.

- Automate the payment process so workers get compensated quicker and faster
- Seamless integration with any payroll system
- Accurately and instantly report data directly to your payroll provider
- Cut your payroll processing time in half and eliminate errors
