VCS Intelligent Workforce Management

WORKFORCE MANAGEMENT SOFTWARE:

What Is It and How Can It Benefit My Business?

Using automation and artificial intelligence, workforce management software streamlines and simplifies how companies manage their people and processes across recruiting and hiring, time and attendance, employee scheduling, PTO management, employee engagement, learning and development, payroll, and more.

Workforce management software is a set of tools that companies use to increase overall efficiency and productivity among employees. It helps organizations track, monitor, and evaluate business metrics across all HR functions.

With VCS intelligent workforce management software, managers can take control of their most expensive resource: their labor, while simultaneously managing their greatest asset: their employees, all within a single, easy-to-use platform.

IMPROVE THE WAY YOUR INTERNAL TEAM OPERATES

VCS has workforces covered in all the areas they need it most

Scheduling, Time & Attendance

VCS simplifies time and labor management by automating the process of creating work schedules, tracking employee hours, and managing absences, time off and leave. In turn, this reduces overtime costs and staff shortages, creating a more profitable and productive environment.

Performance Management

VCS helps businesses manage employee performance throughout every stage of the employee life cycle, from recruiting to retaining and even upskilling. VCS can help you recruit and hire new talent with applicant tracking, eliminate the need to micromanage existing staff with 100% visibility to daily activities, and turn today's top performers into tomorrow's future leaders by automatically tracking learning and professional development opportunities.

Reporting & Analytics

VCS can quantify and analyze any data that you need. Obtain customized reports on time-off activity, overtime, productivity, time and attendance, and employee scheduling data. This data can help you reduce staffing costs while remaining compliant with business rules and regulations, track patterns and budgets, and plan for the year ahead to make smarter data-driven decisions.

Employee Engagement

VCS offers employee self-service tools that can promote a healthy work/life balance, save your business valuable time, and increase employee engagement. Employee self-service features empower employees to take control of their own time management. Staff can view their schedules, make time-off requests, and bid on available work shifts from anywhere at any time.

Compliance Assurance

VCS helps businesses stay on the right side of the law by ensuring compliance with all collective bargaining agreements, contracts, state and federal legislative rules, internal regulatory and HR policies. Rules-based automation guarantees compliance with overtime, break, shift duration, leave, and other regulations set by agencies governing your business.

Payroll Prep & Integration

With VCS, you get best of breed workforce management synced seamlessly to your payroll system. VCS integrates with all payroll providers to cut processing times down from days to hours. Payroll systems simply take the information they're given; VCS prepares that information for you, eliminating the tedious, manual administrative burden. Simply connect everything in a few clicks, then see employee timesheets synced directly to your payroll, 100% error-free.
