BENEFITS

▸ Dramatically reduce the time it takes to efficiently create, access, and manage error-free time cards and schedules.

▸ Completely eliminate paper while cutting payroll processing time in half.

▸ Calculate pay rules, manage minimum staffing levels, and configure a rules-based scheduling process while ensuring compliance with all mandated business requirements.

▸ Reduce overtime costs and promote fair side job assignments.

▸ Rapidly access real-time online scheduling data and key employee information.

Payroll and Timesheet Integration
Automate timesheet creation with a paperless, error-free solution that has the ability to view, edit, approve and print time-tracking information instantly.
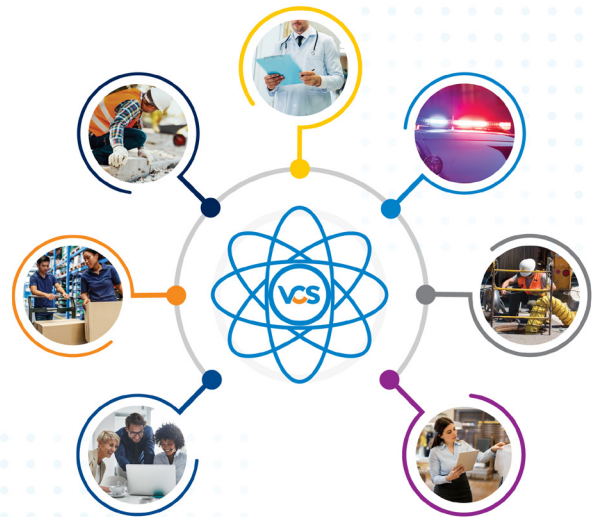

Eliminate Compliance Risks
Distribute overtime fairly, calculate payroll rules, and ensure that the right employees with the right skill sets are always in the right place at the right time.

Schedule Side Jobs Easier
Extra duty jobs for security detail, construction or special events can be automatically filled and billed directly within the system.

THE VCS PLATFORM:

VCS provides the public sector with state-of-the-art workforce management tools to better manage their most complex scheduling patterns and tedious business processes. Our platform boasts 4 industry-specific products, carefully crafted to make employee scheduling, time & attendance, human resources, and payroll easier for the entire government workforce.
